Space Camp for Interested Visually Impaired Students (SCIVIS) presents on
Tuesday, Sept. 27, 2011, 10:30 - Noon

Ike Presley, American Foundation for the Blind to present

Overview of Assistive Technology for Students Who are Blind or Have Low Vision

Workshop Available with Pending ACVREP Credit

The pace of change in the field of technology for the blind continues to advance with new hardware and software arriving on the market almost on a weekly basis. This 90 minute presentation will review the major categories of technology for b/vi students and provide participants with updated information on the newest products.

ATTENTION CHAPERONES!
